Subject: RE: Granite Basin Trail Development Project

Hi Chris--

I am forwarding your comment to Butte County Resource Conservation District. They are performing the NEPA for this project and maintaining all scoping comments.

Any project design that might be accepted by the Forest Service would address issues of soil erosion and work for a desired condition of better resource protections that the existing condition.

Thanks for your input and concerns. Best, Clay

Subject: Granite Basin Trail Development Project

Hello. My name is Chris Rose and I'm a concerned citizen who wanted to voice my opposition to the development of OHV trails near Granite Basin so that Lake Oroville can be protected from erosion and can still be a reliable source of water for the 26 million people in this state who depend on it. Thanks!
